Put More AIR In Your Sound With The New B652-AIR Speakers!

DAYTON, OH – Dayton Audio's signature affordable speakers are even better when you add a little AMT!

Get the power and punch of the original awesomely-affordable Dayton Audio B652 speakers, now with the pristine high frequency performance enabled by AMT (Air Motion Transformer) technology! Dayton Audio B652-AIR speakers take a big step up, thanks to the addition of a higher-quality AMT tweeter. The AMT's folded Kapton ribbon diaphragm moves more air but with less effort and distortion, for purer and satisfyingly dimensional sound.

B652-AIR speakers sound better than ever, yet retain the original B652's same compact size. The B652-AIRs also share the efficiency that delivers big acoustical output without requiring a huge amplifier...and they're still extremely affordable! In fact, the Dayton Audio B652-AIR is the most reasonably priced speaker using AMT technology.

Order your B652-AIR speakers today and get ready to be blown away!
